

European Research Council

**Full scholarship:**  
**INS6000 MSc**  
**INS9000 PhD**  
**(+additional TA salary)**

Optic lab— solar concentrator,  
high power lasers & detection

Chemical room & Clean room  
for manufacturing of optical nano-devices

**We recently discovered that light  
is an excellent heat pump.  
we now use it to double the  
efficiency of solar cells  
Looking for excellent  
MSc and PhD students**

**The research is in the field of  
experimental optics  
& thermodynamics**

**Technion:  
RBNI & GTEP  
Mechanical Engineering  
carmelr@technion.ac.il**
