Wednesday, February 18, 2026, 11:30 - 14:30

David and Janet Polak Visitors Center, Technion

11:30 - 13:15 Poster Session

13:20 - 14:20 Dr. Yael Helfman Cohen, Founder, Nature Code,

Biomimicry - innovation inspired by nature

Biomimicry is a field that draws inspiration from nature's solutions and is recognized today as a powerful driver of innovation. The lecture offers a journey into the wisdom of nature, presenting examples of nature-inspired materials, technologies, and processes across diverse fields, with special emphasis on energy innovation - highlighting natural strategies for energy efficiency and generation and the technologies developed in their wake. The lecture is experiential and interactive, rich in stories, demonstrations, and experiments, and aims to spark curiosity, inspiration, and a new way of thinking that views nature as a vast source of innovative solutions.

14:20 - 14:30 Announcement of Poster Session Winners
